

SUB ZERO 2020 POSTPONED – Saturday 14th March 2020 4pm

We have been monitoring the coronavirus situation constantly, and are aware of news reports released late on 13th March which suggest the British Government are likely to introduce legislation banning mass gatherings from next week. Due to this, after much consideration, we have taken the difficult decision to postpone Sub Zero at this time.

As you know, on 13th March we were advised by The PEAK at Stirling Sports Village to continue to deliver Sub Zero. This was in line with advice from their local government, and we remained confident in the health and safety measures being taken. However, since there is uncertainty regarding when rumoured new legislation is likely to be published, we have decided to postpone in order to give you as much notice as possible, rather than waiting. We of course understand this may be disappointing. Please be assured we have not made this decision lightly.

The ICE team are currently working hard on rescheduling Sub Zero for you. As soon as we have new dates or further information, please be assured we'll be contacting all coaches affected. We sincerely hope you'll be able to join us for the rescheduled competition, and help make it possible for us to continue delivering ICE Extravaganza Cheer & Dance events in Scotland.

Coaches who are unable to make the rescheduled event will instead be able to transfer their payment to any other available ICE event up to July 2021, including the new ICE Ultimate Dance Experience event being organised in Scotland for next season.

As you might imagine, we're receiving a very large number of calls and messages currently. We encourage coaches to monitor their inboxes (and spam folders) for updates. We respectfully ask that spectators and athletes please check our social media for the latest information rather than contacting us directly at this time.

Thanks also for your patience while our response time may be slower than you're used to. We hugely appreciate your patience whilst we are working very hard to adjust plans, and we kindly ask for your understanding during these uncertain times.

For more information, please see the latest update from SportCheer Scotland:
